22nd February 2006

We have been dealing with Call Connect at Suite 6/1 The Boulevard, TORONTO since March 2001. We originally only had our fixed and mobile phone accounts with them but we now have our broadband with them as well.

We have always found the staff to be extremely helpful, friendly, honest and willing to assist us as much as possible in our choices as to which phone and plan suits our personal requirement.

Call Connect has saved us a fortune on our phone bills.

We will continue to deal with Call Connect and highly recommend their products and services.

Should your required any further information where I can be of assistance to you, please do not hesitate to call me.

Regards

Narelle Monk
Financial Controller
